A different new pipe tobacco. Here's what to expect:

A different taste.

Field & Stream is a new aromatic blend of choice Burley and Bright tobaccos—a mild mixture with friendly flavor.

A different cut.

A special "open-air" cut of plugs and flakes lets more air circulate in your bowl, so you can't pack a hot smoke.

A different aroma.

This pipe tobacco has a uniquely masculine aroma. Its outdoor tang may remind you of a great autumn day in the woods.

Try new Field & Stream pipe tobacco soon.
